TECHNOLOGY

JobFit System - Online Job Task Database

The patented JobFit System is an online interactive database that enables employers to contrast a worker's physical capabilities to their job demands, and instantly learn what the worker can do, can't do, and how to risk manage the gap in between.

JobFit Systems software is a complete pre-hire to retire solution that supports organisations with:

- return to work planning
- pre-employment screening
- manual tasks risk assessment
- health and wellbeing strategy
